

# New H.O.P.E. Services

**H.O.P.E. is pleased to announce the addition of 3 new services:**

**Special Needs:** H.O.P.E. provides the funds for the daily needs of those with Special Needs such as autism, cerebral palsy, deafness, down syndrome, learning disabilities, limb malfunction, mental retardation and visual impairments. Services include access to medical care, prescription medication, education on hygiene, job skill training, housing and food. Funds also go towards expanding current

special needs facilities and allow them to accept more children from their waiting lists. Currently H.O.P.E. is supporting 5 special needs groups in Egypt.

**Services for Prisoners & Their Families:** H.O.P.E. is contributing to His Grace Bishop Bakhomious' prisoner's service in Egypt. Funds help cover the costs of food, medication and personal items for the prisoners and help for their families. Currently there are approximately 150 prisoners in 3 prisoners in Wadi El Natroun.

**Cana of Galilee Services:** Helping the needs of couples that are trying to get married. Many needy couples are unable to get married due to high expenses and low income. H.O.P.E. works with churches and orphanages to support the new couples. Many of the services include items such as a modest dwelling, furniture, washing machines, refrigerators, stoves, clothing, and personal hygiene products. Other

items such as wedding dresses and suits have been sent to help in the service of Cana of Galilee.
